Little Chef Garden I Kuching
 - In charge of customer service by taking orders, serving, and ensuring a good dining experience.
 - Showcase effective teamwork to improve table turnover for smooth restaurant operations.

PROJECT

1. UNI Budget Planner Application github.com/siejie17/Project

- A fully Java-developed interface that allows university students to track their incomes and expenses. The students are allowed to add, edit, view, and delete both incomes and expenses that are saved in the database. Besides, the students are also able to see their expenses based on the category and generate graph that visualise monthly expenses.

ACTIVITY

1. NASA Space Apps Sarawak 2023

A 48-hour global hackathon solving real challenges on Earth and in space.

2. SCRUMstudy - SFC Certification

Obtained Scrum Fundamentals Certified (SFC) certification on SCRUMstudy.

3. 5G Pioneers Programme

Self learning 5G course. Issued a 5G Pioneers programme's badge by ERICSSON.
